ABSOLUTE 52 FLY 2017 - FULL OPTIONS – 450 ENGINE HOURS
Magnificent Absolute 52 Fly, a prestigious yacht that perfectly embodies the craftsmanship of the Italian shipyard Absolute Yachts. Renowned for its innovative design, exceptional interior volumes, and premium build quality, this yacht offers a level of comfort rarely matched in its class. With only 450 hours on its Volvo Penta IPS 700 engines, this vessel is presented in remarkable condition and represents a rare opportunity on the pre-owned market. Maintenance invoices available upon request.

From the moment you step aboard, the yacht impresses with its generous outdoor spaces, thoughtfully designed for life at sea. The large aft cockpit, fully finished in teak, extends naturally into the saloon through a wide opening glass door, creating a unique sense of continuity between interior and exterior spaces. The hydraulic swim platform provides easy access to the water and tender storage while also serving as an additional relaxation area at anchor. Forward, the bow features a spacious sun pad and an elegant outdoor lounge, ideal for enjoying days at sea in absolute comfort.

The flybridge is among the finest in its category. A true panoramic terrace over the water, it is equipped with a full helm station featuring electronic instrumentation, Volvo IPS joystick controls, a convivial dining area, a sun pad, and a fully equipped outdoor galley. This exceptional space allows family and friends to be entertained in a luxurious atmosphere while enjoying uninterrupted views of the horizon.

Inside, the natural light is simply spectacular thanks to the brand’s signature oversized windows. The main saloon offers a 360-degree panoramic view and benefits from remarkable headroom. Noble materials, refined woodwork, premium upholstery, and Italian craftsmanship immediately reflect the model’s high-end positioning. The fully equipped galley meets the standards of a long-range cruising yacht, with ample storage and comprehensive household appliances.

The accommodation comprises three true double cabins, each offering exceptional comfort. The full-beam owner’s cabin is a genuine private suite with large side windows, abundant storage, and an en-suite bathroom. The VIP cabin benefits from impressive volume, while the guest cabin offers a particularly practical convertible configuration. Two luxuriously appointed bathrooms complete this area, together with an independent crew cabin accessible from the aft platform.

Powered by twin Volvo Penta D8 IPS 700 engines producing 550 hp each, this yacht benefits from the IPS propulsion system, delivering excellent performance, optimized fuel consumption, and outstanding cruising comfort. Maneuvering is made effortless by joystick controls installed at both the main helm and the flybridge. With only 450 engine hours, never chartered, this yacht has seen moderate private use and offers significant potential for her future owner.

This particular example is exceptionally well equipped, including reverse-cycle air conditioning, generator, hydraulic swim platform, hydraulic passerelle, complete navigation electronics, autopilot, radar, multifunction displays, televisions, a premium audio system, washing machine, dishwasher, interior and exterior refrigerators, full teak decking, and numerous additional options designed to maximize onboard comfort.

Combining Italian elegance, seakeeping performance, modern technology, and superior comfort, this motor yacht represents an exceptional opportunity for a discerning owner seeking a vessel that is ready to cruise, meticulously maintained, and offered in a highly desirable specification.

Berth available for lease in the French Riviera departments 06 and 83. Available for viewing by appointment 7 days a week.
