Beschrijving

Overview

The Absolute 60 Fly represents the Italian shipyard’s highly successful approach to modern flybridge cruising, combining generous interior volume with efficient Volvo Penta IPS propulsion and a notably light-filled interior concept. Designed for owners seeking comfortable Mediterranean cruising with practical long-range capability, the model remains recognised for its full-beam master suite, versatile flybridge arrangement and strong connection between interior and exterior living areas.

This 2017 example benefits from a carefully selected specification including hydraulic systems, upgraded navigation electronics, flybridge soft-top, aft docking station and a well-appointed accommodation layout with additional crew cabin. With approximately 750 engine hours, the yacht presents as a capable private cruising platform equally suited to extended seasonal use.

Key Features

Twin Volvo Penta D11 IPS950 engines, 2 x 725 HP
Approx. 32-knot maximum speed
3 guest cabins plus separate aft crew cabin
Hydraulic bathing platform with 450 kg lifting capacity
Electro-hydraulic telescopic passerelle
Flybridge electro-hydraulic soft-top
Triple 12” GPS chartplotter configuration
AIS 650 system
Stern docking station for manoeuvring assistance
Engine room and cockpit cameras integrated with chartplotters
Exterior & Decks

The exterior arrangement of the Absolute 60 Fly is designed around relaxed social use and practical circulation throughout the yacht. Wide side decks with integrated lighting lead forward to a spacious bow lounge area, while the cockpit offers a comfortable al fresco dining environment complemented by teak furnishings and electrically operated privacy shading aft.

The flybridge provides one of the model’s defining entertainment spaces, featuring a generous seating arrangement, wet bar area, helm station and an electro-hydraulic bimini soft-top finished in dark grey. The hydraulic bathing platform enhances waterside access and simplifies tender handling, while the electro-hydraulic passerelle assists with stern-to Mediterranean mooring operations.

Interior & Accommodation

The interior follows Absolute’s contemporary Italian styling language, with extensive glazing creating an open and naturally illuminated atmosphere throughout the main deck saloon and lower accommodation areas. Walnut veneer finishes are paired with carefully coordinated soft furnishings and practical living spaces intended for extended onboard stays.

Accommodation is arranged for six guests across three cabins, including a full-beam owner’s suite, forward VIP cabin and twin guest cabin. An additional aft crew cabin with separate access from the bathing platform provides accommodation for one crew member or occasional guests.

The saloon incorporates a sliding glass partition between the galley and seating area, together with a concealed TV lift system and integrated entertainment package.

Performance & Machinery

Powered by twin Volvo Penta D11 IPS950 diesel engines producing 725 HP each, the yacht delivers responsive handling together with efficient cruising characteristics associated with the IPS propulsion platform.

Engines: 2 x Volvo Penta D11 IPS950
Power: 2 x 725 HP
Engine Hours: Approx. 750

Maximum Speed: Approx. 32 knots
Fuel Capacity: 2,400 L
Fresh Water Capacity: 600 L
Hull Construction: GRP
Interceptors fitted
Bow thruster
Shore power connection
Automatic FM200 fire suppression system
Air conditioning including fourth cabin
The yacht is also equipped with fresh water deck wash connections and integrated onboard monitoring systems.

Tenders & Toys

Hydraulic bathing platform with 450 kg lifting capacity
Tender Sur Marine
Navigation & Electronics

GPS chartplotters with three 12” displays
Open-array radar antenna
AIS 650 transceiver
Third aft docking control station
Engine room and cockpit monitoring cameras
Digital TV aerial system
Satellite TV cabling
Saloon home cinema system with Blu-ray integration
Wi, Fi-enabled televisions in saloon and owner’s cabin
Refit & Maintenance

In mid-May, a comprehensive system maintenance, hull polishing and antifouling coating renewal will be carried out.
Classification, Compliance & Registration

CE Category B
Equipped with rescue and safety package including life raft, flares and EPIRB
VAT status not specified for publication
Currently located in France
Layout & Operation

The layout configuration supports both private family cruising and owner-operated Mediterranean use, with practical crew separation via the aft cabin arrangement. IPS propulsion and stern docking controls contribute to simplified close-quarters manoeuvring, while the flybridge and cockpit arrangement provide strong charter-style entertaining capability.

The combination of interior volume, natural light and multiple social areas makes the model particularly well suited to extended coastal cruising programmes.

Commercial Notes

The Absolute 60 Fly remains one of the most commercially recognised models in the 60-foot flybridge sector, benefiting from broad market appeal due to its IPS efficiency, modern styling and practical accommodation layout. The yacht’s hydraulic systems, flybridge configuration and Mediterranean cruising specification support both private ownership and potential seasonal charter-oriented operation where applicable.

Broker’s View

The Absolute 60 Fly continues to stand out in its segment for delivering a notably larger onboard feel than many competitors of similar length. This particular yacht combines a desirable Mediterranean specification with sensible engine hours and several owner-focused upgrades, including hydraulic handling systems, upgraded electronics and enhanced entertaining spaces. The interior remains one of the strongest aspects of the model, offering excellent natural light and a highly functional layout for family cruising or extended stays aboard. For buyers seeking a modern flybridge yacht with efficient IPS propulsion

and strong usability credentials, this example represents a balanced and well-equipped opportunity within the current market.
