Beschrijving

The model is well known for its stable and safe hull, built to handle demanding conditions with comfort and control.

This boat is equipped with two newly renovated Volvo Penta KAD 42 supercharged diesel engines with new blocks, turbo and compressors and has only run about 50 hours since renovation. The boat is shipyard maintained, always stored indoors and is delivered with full documentation. The current owner has continuously updated the boat, including new electrical installation in 2023 and a new two-part canopy in 2020, new upholstery on the driver's seat in 2026. With its well-planned layout, practical solutions and classic Bertram feel, this is a motorboat that is equally suitable for day trips as for longer excursions.
