Beschrijving

WHIMSEA is a 30.50-metre luxury sailing yacht built by CNB in 2009 to a design by Luca Brenta & Co. Formerly named CHRISCO, this carbon composite CNB 100 combines exceptional sailing performance with elegant design and long-range cruising capabilities. Her sleek silhouette, distinctive glass coachroof and refined interior by Wetzels Brown Partners create a unique onboard atmosphere. Carefully maintained and upgraded over the years, including a new engine in 2026, WHIMSEA features a carbon mast and boom, hydraulic sail controls and a spacious cockpit protected by a removable carbon hard top. With accommodation for up to 7 guests in 3 cabins, she offers the perfect combination of performance, comfort and contemporary luxury.
