Owner speaks : The Excess 14 is a superb boat: an excellent compromise between comfort and performance.
I really enjoyed sailing it with my family for two summers, and it has been optimised on many points of detail. Today I sell it for a bigger model and moving on to an Outremer 55. This boat has not been leased, it is in excellent condition and the whole boat and its equipment are still under warranty for one year. I will be delighted to accompany the future owner for the first few trips and show him all the details and how the boat works.
