Ideal for those who want to work as Charter boat

The 458 is the successful evolution of the 450, with excellent improvements both in the handling of sailing equipment (such as self-tacking jib both sides) and in the interior design, giving a fresh, comfortable, zen space that makes the owner and his company they feel the boat, their home, making it ideal both for sailing and open sea adventure as well as a place where they can comfortably live and spend quiet moments of rest.
The same feeling of wide open and comfortable space dominates the open aft saloon.

The ease of sailing, thanks to their navigation equipment and hull, combined with the modern design of the interior and their open spaces, are the reasons that make Hanse boats so recognizable and popular among sailors.

This particular boat is the version with 4 cabins, 2 wc and a separate area just for showers, which is a very smart and practical solution when the guests or the family exceed 4 people, while it has the extra. Total passengers 10.
It is a literally new boat, from 2019, with professional equipment that will ensure its profitable operation for many years but will also make the private owner feel even safer at sea.
In the stern it has the two wheels and the navigational instruments with the hydraulically opening platform as is the latest trend in design.
Next is the split coffee table with the two large sofas
The boat has the Yanmar 80hp turbo diesel engine with saildrive and short keel 1.85 mtr
