Beschrijving

Packed with features the 907, is tailored for those who demand exceptional performance and families seeking unparalleled comfort and versatility. It comes in two distinct configurations, allowing you to choose the perfect style for your needs: OPEN for an unrestricted, open-air experience, T-TOP for added protection while maintaining an open feel. The 907 is a single engine boat rated for Mercury’s cutting-edge 500R engine, propelling to a thrilling top speed of up to 57 kn. Stability is a hallmark of every IRON model, and the 907 takes this even further with a redesigned stringer system. The result is a smoother more forgiving ride, even in choppy conditions, ensuring confidence and comfort every time you hit the water. The redesigned seats in the aft offer improved support, ensuring comfort for long trips or laid-back evenings. The large aft table is making it perfect for dining or socialising, and it easily transforms into a spacious sun-bed for lounging. Additionally, the popular sun-bed solution in the bow from the IRON 827 has been included, providing the IRON 907 with two sun-beds. With a large steering console designed for more than just performance the 907 offers functionality and comfort. Inside, it accommodates overnight stays for two, featuring a standard chemical toilet with the option to upgrade to a water-flush system. This makes our flagship an ideal choice for weekend adventures. This is a starting price. The model is fully customizable, allowing you to add options, adjust performance, and personalize the boat to suit your preferences.
