Beschrijving

CIRE is a 2016 Outer Reef Trident 620 — one of the most capable and comfortable long-range motor yachts available at this level. Built to go anywhere with confidence, she combines a deep-sea blue-water hull with a beautifully appointed interior that sleeps six guests in three en-suite cabins.

She is lightly used, professionally maintained, and offered in exceptional condition. With Vector zero-speed stabilisers, full SIMRAD glass bridge, Skyhook dynamic positioning, and Zeus Drive joystick controls, she is as easy to handle as she is capable offshore.

The vessel comes with a complete service history, all manuals, and a comprehensive inventory. She has been continuously cared for by a dedicated crew couple, ensuring she is maintained to the highest standard and ready to go at any time. Her shallow draft of approximately 1.4 m opens up anchorages and harbours inaccessible to deeper vessels.
