Consumenten-electronica	**tv, tv antenne**
Veiligheid	**EPIRB**
Persennings	**bimini top**

Beschrijving

There are yachts that impress with their size and others that manage to translate that size into a different way of experiencing the sea. This 2016 Jeanneau Prestige 620 clearly belongs to the latter. Its flybridge, the large owner's suite, three cabins with bathroom, the outdoor spaces and the relationship between the lounge and the sea allow you to imagine long days on board with the feeling of having an authentic private residence that can change horizons every day. The unit combines this habitability with a particularly complete configuration: two Volvo Penta D11 IPS950, joystick, Raymarine electronics, 17.5 kW generator, hydraulic platform, telescopic gangway, air conditioning and numerous systems designed to simplify maneuvers and increase autonomy. A yacht designed for those who want to enjoy the luxury of having space, but also the comfort of being able to use it naturally.
About this Jeanneau Prestige 620
Built in 2016, this Prestige 620 represents one of the most recognizable flybridges in the Prestige range of its generation. The interior architecture prioritizes large glass surfaces, a bright saloon and a layout of three cabins with three bathrooms that allows maintaining a high level of privacy during extended stays. The unit is equipped with two Volvo Penta D11 IPS950 685 HP, with approximately 1,000 hours, IPS transmission and maneuvering joystick. The combination of IPS, bow thruster, stern electric winches and controls from both positions considerably facilitates maneuvers in port for a boat of this length. On board we also find a 17.5 kW generator, air conditioning, large-format Raymarine electronics, hydraulic platform, telescopic gangway, fully equipped kitchen and a flybridge conceived as a second large outdoor social area.
Technical data
Shipyard: Prestige / Jeanneau
Model: Prestige 620
Year: 2016
Type: Motor Yacht / Flybridge
Hull material: GRP / GRP
Cabins: 3
Bathrooms: 3

Why this unit stands out
What makes this Prestige 620 especially interesting is the way it combines interior volume, ease of maneuvering and true cruising ability. The three cabins and three bathrooms allow you to receive guests without sacrificing privacy, while the flybridge and outdoor areas offer different spaces to enjoy the boat throughout the day. The combination of Volvo Penta IPS, joystick, bow thruster and electric winches provides ease of handling that is especially valuable in a boat of this length. Added

to this are a generator, air conditioning, hydraulic platform and very complete Raymarine electronics, creating a unit prepared for both long stays and intensive family use.
