Engine Work Hours: 860 h

A well-maintained Princess 38, built in 1984, offered by its single owner since new. The Princess 38 is one of the most successful models produced by Princess Yachts, developed after the highly popular Princess 37 and known for its spacious layout, reliable performance, and strong build quality. With a length of 11.60 m and a beam of 3.96 m, she offers generous interior volume, a comfortable saloon/wheelhouse, and two private cabins—making her ideal for family cruising or longer stays aboard.
This model is appreciated for its deep-V hull, stable handling, and dependable twin diesel engines, giving her the ability to cruise economically while still covering longer distances with ease. The Princess 38 remains a sought-after classic thanks to its practical layout, solid GRP construction, and timeless design.
This particular vessel has been carefully owned and consistently maintained, with recent works including antifouling (May 2026), renewed WC piping, and installation of a new bathing platform. Equipped with a wide range of navigation, comfort, and deck equipment, she is fully prepared for enjoyable cruising.
With only one owner, strong mechanical condition, and a complete equipment list, this Princess 38 represents an excellent opportunity to acquire a well-kept example of a proven and reliable flybridge motor yacht.
