Beschrijving

This well-maintained example from 2004 has been in Sweden since new and has been stored indoors during the winter, serviced regularly, and continuously updated.

The twin MAN V12 engines at 1,300 hp each deliver the performance expected from a Princess V65, while the upgraded bow and stern thrusters and Shipcontroller make this large yacht easy to handle in port.

On board there are three spacious guest cabins as well as a separate crew cabin, generous social areas, and high comfort for extended stays. Full teak, electrically operated sunroof, electro-hydraulic gangway, and double garages for tender and jet ski enhance the impression of a well-equipped and thoughtfully designed motor yacht.
