Interieur	**cockpitafel, koelkast, oven**
Persennings	**bimini top**
Zeilen	**genua, grootzeil**

Beschrijving

CAP MED BOAT & YACHT CONSULTING is pleased to present this Viko S35, model year 2022, sold in 2024 after a short demonstration period. Designed by naval architect Sergio Lupoli, this 35-footer strikes a rare balance between comfort, volume and performance. At 12 metres overall with a 3.74-metre beam and 1.95-metre draft on a bulb keel, she is both lively and easy to handle. The yacht is lying in Cannes.

The highlight of this particular boat is a series of installations and upgrades carried out in 2024, significantly improving onboard comfort: a second service battery and two 100 W solar panels, a new water heater, an autopilot with touchscreen GPS, a bimini and 50 metres of chain, along with several practical refinements that make daily life aboard easier.

Power comes from a 30 HP Yanmar diesel inboard from 2022 with only 100 hours — an exceptionally low figure reflecting very limited use since launch.

The rig comprises a full-batten mainsail and furling genoa, with wheel steering. The electronics package is complete and recent: depth sounder, speed log, wind instruments, autopilot, compass, GPS, VHF, AIS, radio and touchscreen display. A bow thruster and electric windlass make port and anchoring manoeuvres straightforward.

The cockpit is finished in flexiteek, as are the side decks, with cockpit table, cushions, shower and bathing ladder. Below, the 3-cabin, one-heads layout impresses with its careful finish, well-considered technical details and natural light. The galley features an oven, refrigerator and hot water; the heads are electric. The electrical installation includes battery charger, inverter, shore power inlet and both electric and manual bilge pumps. Fresh water tank of 130 litres and fuel tank of 60 litres.

With her modern lines, welcoming cockpit and bright interior, this Viko S35 is an excellent opportunity to step aboard a recent, fully equipped and carefully maintained yacht. For further information or to arrange a viewing, please contact CAP MED BOAT & YACHT CONSULTING.
