Beschrijving

The West Wind 35 is a sailing yacht well known for its balance of performance, comfort, and structural strength. Designed for cruising, it has an overall length of approximately 10.5 meters, providing generous space both on deck and inside the cabin. Its solid hull offers excellent stability and safety during coastal and offshore voyages, while the rigging system allows efficient handling even with a small crew. The interior features comfortable cabins, a functional saloon, a fully equipped galley, and a complete bathroom, making it ideal for extended stays at sea. The West Wind 35 combines classic lines with reliable sailing capabilities, appreciated by sailors seeking autonomy, comfort, and dependable performance in different weather and sea conditions.
